

Notice of Exhibition at Japan Mobility Show 2025

We are pleased to announce that AUNDE Boshoku will be exhibiting at Japan Mobility Show 2025.

Formerly known as TB Kawashima, a company specializing in the manufacturing and sales of covering materials for transportation vehicles, is now part of the international AUNDE Group with their headquarters in Germany, and has embarked on a new journey as AUNDE Boshoku. While inheriting the legacy of our founding company with over 100 years of history, we offer a world of materials that incorporate the latest international trends & technologies. We also showcase advanced commercial vehicle seating systems from ISRINGHAUSEN, allowing visitors to experience the technical innovation of the AUNDE Group.

We warmly invite you to our booth to experience the world of AUNDE Boshoku and the AUNDE Group.
We look forward to welcoming you at the exhibition.

Japan Mobility Show 2025
